Gaby,

As we mentioned yesterday the disposal of personal property requires diligence on our part. Unfortunately, the team can not respond today. If the person is no longer at the site, the best thing for us to do now is to make contact with the HOPICS caseworker who is working with the individual and go from there. There are some documentation things that we will need to handle and the caseworker can be a huge help in that part of the process. If you can provide that info ASAP we will work on processing the location as quickly as possible.
